

Care of Facilities 2016 Summer Projects

Dear Parishioners,

Throughout the spring and summer months we have been able to upgrade various items around the parish campus during this budget year, and begin some new items in September.

Thanks to your continual generosity each week, we have:

- Finished the new parking lot, and resurfaced the large parking lot to prevent further cracking.
- Added new parking spaces for people with disabilities in the second lane near church.
- Added a TV on second floor in parish center for ongoing faith formation/catechesis programs.
- Taken down dead oak trees and trimming of dead branches and trees will continue for safety.
- Replace security lighting on church and rectory buildings.
- Replaced Nazareth Hall AC unit (shared costs with Regional School).
- Removed Immaculate Conception Stained Glass Icons and Cross on Top of the Church and moved to the parish campus. Glass in various windows on campus and cross along main entrance driveway as you enter campus. BVM statue in front of parish center.

Projects in motion this month, we will:

- Have 5 hearing aids for church use for people with hearing difficulties
- Have electronic opening doors (near grotto) to make it easier for people to enter church.
- Have a newly renovated church bathroom (2 into 1) which will be more child and disability friendly.
- Have old usher room turned into a Sunday Ministry Office centrally located in the Church.
- Complete 5 lantern pole lights in exit driveway of the campus
- Paint parish center kitchen and front entrance doors
- Replace deteriorating rectory roof

Thanks for your continual and steady support and investment in the parish community resources and programs. We are continuing to make a difference in many areas of life.

Peace,
Father Mike
